2. Background

The GLOHRA Academy Series directs special attention towards the added value of interdisciplinary and international cooperation in global health research. On the first Tuesday of the month, we invite speakers to share insights of his/her research projects while focusing on research processes, methods as well as lessons learned. Following the speaker's presentation, the Series encourages academic exchange between the speaker and the audience in a Q&A session.

3. Speaker

Prof. Dr. Kayvan Bozorgmehr is full professor in public health and head of the Department of Population Medicine and Health Services Research, School of Public Health at Bielefeld University. He graduated at Frankfurt University, obtained his medical doctorate from the Institute for Social Medicine, Epidemiology and Health Economics, Charité University Medicine Berlin, and completed a postgraduate Master of Science in Public Health at Umeå University in Sweden.

His scientific interests are in the area of structural, social and economic determinants of health and health system organization, with a particular focus on equity aspects, migration and transnational interdependencies. He leads several large-scale research projects on health and health care for asylum seekers and refugees and has published extensively on this topic.
