2. Background

The GLOHRA Academy Series directs special attention towards the added value of interdisciplinary and international cooperation in global health research. On the first Tuesday of the month, we invite speakers to share insights of his/her research projects while focusing on research processes, methods as well as lessons learned. Following the speaker's presentation, the Series encourages academic exchange between the speaker and the audience in a Q&A session.

3. Speaker

PD Dr. Wilm Quentin is senior research fellow at the Department of Health Care Management Tech University Berlin, where he is leading the department's focal area "Global Health" and the International Teaching Programme. He holds a Visiting Professorship position at the Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana. As a consultant he has been working for international Organisations (WHO EURO, WHO AFRO, Worldbank), national governments (e.g. Slovenia, Belgium) and other actors (national health insurance in Poland and South Korea). His research interest is on health systems strengthening.
